

Car Showrooms

Q50SF offer full protection to Car Showrooms, with anti-ram bollards, perimeter hoop barriers, telescopic bollards for vehicular access, cycle parking and other metalwork.

With experience working on sites such as Jaguar Land Rover and Porsche, Q50SF can take your Car Showroom project from the design stage through to manufacture, supply and install, working with the nominated contractor.

All projects have a dedicated Project Manager and our experienced team will take care of site measurements, visits etc.

Q50SF commit to excellent standards of service and will deliver your project on time and on budget.
